Grand Display at the Eastern Division

No such display has ever been witnessed in East Tennessee. The exhibition of blooded stock, such as Durham, Jersey, Devon and Ayrshire cattle, Berkshire, Essex and other hogs, fine sheep, blooded horses, including, one Arabian, is unprecedented. We have some of the finest cattle in the United States here.

The Ladies' Department is a great success. The display of fruits is unequalled. The Fair is a splendid success. From ten to fifteen thousand persons are expected on Thursday and Friday. Grand displays and splendid attractions for both does not be successed.

The court house was well filled last night to hear a workingman's speech from David Richards. We sincerely regret that the extreme pressure upon our columns this morning renders it impossible to give the notice his speech de-serves. In his own peculiar but often eloquent and affecting style he demonstrated that the Republican party was the workingman's party, for it had done more to advance their interests than any other. He spoke of the great advan-tages of a tariff for the workingmen and showed how wages had increased under Republican lars.
policy. It was a capital speech bristling with good hints, good sense and stubborn facts.

Things went on in this way for some time, the two lovers, however, meeting for a few moments on different occasions, and renewing their vows of fidelity to each other, she promising to say yes to any interrogations a preacher or esquire might make to her at any chance opportunity. For the good fortunes of the young man, it seems that the neighbors were all deeply interested in his success, thinking, no doubt that such constant devotion as his should meet with the reward of possessing her hand, the heart being his already. Now it seemed that the old gentleman, who is a hard working man as well as a preacher, had some shingles to split some distance from the house, and accordingly ingly started out that day for that purpose. This becoming known to some of his neighbors, they immediately informed the lover, the license were procured in haste and Esquire Thurley, who is always ready for such occasions, was notified of the situation of things, and the whole party, accompanied by some friends proceeded to the house of the parson. The intended bride, of course, was ready to fulfill her promise, and was willingly led before the Esquire, who in the quickest possible manner, pronounced them man and wife. The ceremony had not been concluded too soon, for the old gentleman made his appearance about that time. The Cheatham Nashville Demonstration

The Nashville Saturday night demonstration was a success occording to the Union and American (Cheatham organ,) but a fizzle according to the Banner (Johnson.) Here is what the U. and A. says:

The city last night was running over with people and brim full of enthusiasm,
The streets through which the procession
passed were lined with enthusiastic crowds. The ladies were out in full force throwing boquets, waving hankerchiefs, and joining in the general glee. From the indications last night it is very evident that if the ladies had the right to vote, Gen. Cheatham would be elected by the largest majority ever received by any candidate in Tencessee. It was certainly a cheering sight, ex- imagined any one bearing his personal celling anything we have ever seen in Nashville.

Here is what the Banner says:

The Great Cheatham Spectacular Demonstration was a failure. This is the honest truth about it. Our reporters were instructed to make a fair report of it, but nothing could present in a more pitiable aspect than the simple recital of the facts without exaggeration. We have no desire to misrepresent it. If it had been a procession of two thousand instead of two or three hundred it could not have affected the election anyway. If the two or three hundred had only been voters it would not have been quite so ludicrous a farce. We doubt if there were a hundred voters in general address for and supports Gen. Grant and the entire Republican ticket.

But there was many a thousand the line. But there was many a thousand on the sidewalks—and they were generally for Johnson. The voters in the procession (if it could honestly be dignified with that title) were generally on horseback. We were really surprised to find so few grown men carrying torches or transparancies. Where were all the men of the "organization?" Everybody who saw it knows that nearly all the torch-bearers were lads, of both colors, between the ages of twelve and seventeen—little fellows grown men carrying torches of transparancies. Correspondence of the Daily Chronicle

CLEVELAND, Oct. 12, 1872. To-day closed the second annual exhibition of the Bradley County Agricultural Association, which, taken as a whole, was one highly creditable to the county and reflects honor on the officers for the energy with which they labored for its success.

THE GUBERNATORIAL CANVASS. Impressions Made Upon the People. BRISTOL, TENN., Oct. 11, 1872.

EDITORS CHRONICLE: The candidate for Governor spoke here to-day, to about two hundred and fifty Virginians and Tennesseeans, and the very best of order prevailed. Col. Freeman made the opening speech, and his friends were well pleased with his effort and no doubt he made friends that will count on the day of election. He charged the present State Government with mistakes, weakness and imbecility, and sustained his charges with uncontrovertable facts. He advocates education for all, and a new and better system of public roads, and he defends the was being visited by a young man, to which he was opposed, and fearing a like result, he at once ordered her to get ready for a trip, and accordingly started out the next day on foot comcordingly started out the next day on foot comacts and doings of the Republican party

Said he went in a rebel into the confederate army and came out one. If I mis quote him it is unintentional. He would not say who he was for, Cheatham or Johnson, but the Johnson men know Johnson, but the Johnson men know very well who he is for by the way he paraded his confederate record. He said with a sneer that Gibson, a little fellow down here in the mountains that he supposed the crowd had never heard of before, made some charges, but he did not tell what those charges were. Some of us thought we knew. He descended to very vile epithets for a Governor, as we thought, when speaking of some of the Republican press of this State. He said he was opposed to assessing a general tax for the support of common schools—that A. H. Stephens was a supporter of Grant and could not be relied on at all to prove anything political. Told three anecdotes, and the only one that was respectable had been but a few days before told by Mr. Maynard to the same crowd. For our part, we are bound to confess that Gov. Brown comes much nearer the black-guard than we name could ever come. He may get the full Democratic vote of Sullivan, but we Chancery Sale of a Valuable Farm HENRY.
